EVERYBODY BOOST

Amount secured at 3 p. m. \$232.00.
Balance to be raised, \$2768.00.

Early this morning, a large canvas sign, representing a huge clock, of which the above cut is an exact reproduction, was fastened to the corner of the Olney building, in front of the second story offices occupied by Dr. Mitchell Miller, the osteopath.

The shorter hand is stationary, pointing to the top figure, \$3,000, the amount which it is hoped to raise during this campaign. The longer hand is attached on a pivot and will be swung around the circle registering the amount received from time to time.

It is needless to say that this clock will be pretty closely watched by the general public during the coming days, and most anxiously by the 50 men and 40 boys who are hustling to force it on its journey around the big circle.

A 3 o'clock this afternoon, the total amount received was \$232, leaving a balance of \$2768 yet to be secured. A goodly proportion of the committee-men were hustling this morning, and others will be in the field this afternoon. Judging from the results already accomplished, the daily stunt of \$500 will be secured before closing time tonight.

Alcohol in Medicines.

Alcohol is the best known preservative of medical compounds, and the average proprietary medicine contains from 15% to 20%, which is the smallest possible amount to preserve the ingredients, while the average doctor's prescription contains from 25% to 50%.

Such standard preparations as Lydia E. Pinkham's Vegetable Compound contain but 18%, and they even put the Compound up in tablet form, which the over-scrupulous woman, who objects to alcohol in any degree, may use.

Miss Edith Parker, will give a reading on "Polly of the Circus," at the Duncan opera house this evening.

Mrs. Sinclair is having a neat cottage built in northeast Clovis at a cost of \$1,100.
